Our Process Piping Services

- » Carbon, stainless, and alloy pipe fabrication and installation
- » Complete job setup with accurate job forecasting
- » Emergency on-site repair
- » Mechanical skid-mounted assembly packaging
- » Medical gas piping installation
- » Open-atmospheric vessel manufacturing
- » Orbital welding
- » Professional engineering design reviews
- » Steam, chemical, and gas process piping fabrication
- » Structural steel fabrication
- » HVAC Piping & Repair
- » Boilers
- » Chiller Plants

The right solution for every piping need

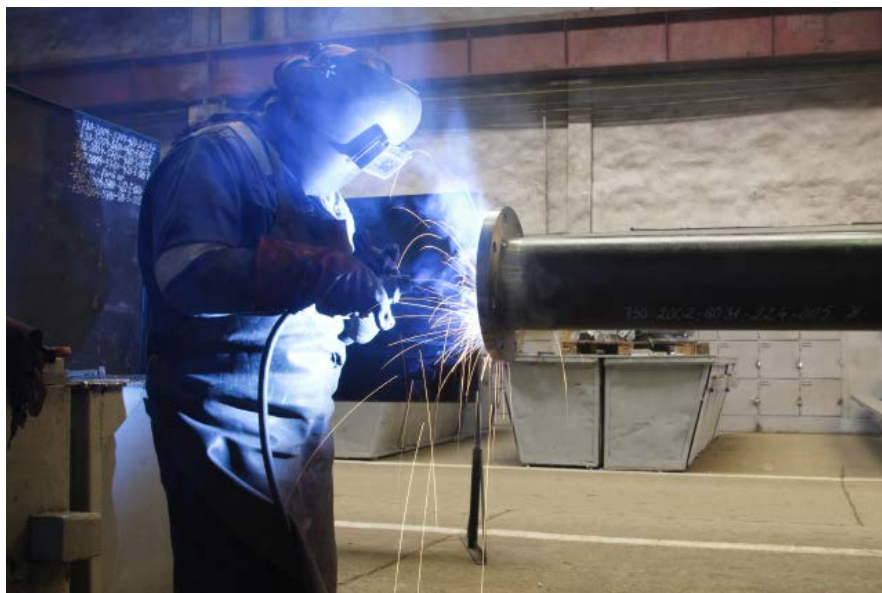

Backed by a modern, fully equipped fabrication facility, DeBra-Kuempel's licensed and certified process piping specialists design, build, fabricate, install, and service a wide variety of process piping systems. These reliable, high-quality components and assemblies meet the needs of automotive, chemical, food/beverage, healthcare, pharmaceutical and steel facilities, as well as power generation and central utility plants.

Expert Workmanship

To ensure consistent high quality, our workmanship meets major industry standards. Our welders are qualified to Sections VIII and IX of the A.S.M.E. Code.

We also maintain a National Board of Boiler and Pressure Vessel Inspectors' "R" stamp for the repair of pressure vessels

and a P.P. stamp for B31.1 pressure piping fabrication. The result— piping systems that assure smooth, productive operation in a safe and healthy environment.
